

Energy Services

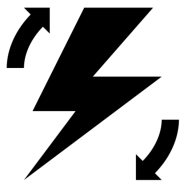

10 For 10

There are 10 Basic Safety Rules that we follow to make our everyday lives safer, and these guidelines are fundamental pillars for us to achieve our goal of zero accidents.

The 10 Basic Safety Rules help us to prevent people from having accidents while performing our operations. All our employees and contractors must follow them.

1. Work Permits

2. Communication

3. Safe Driving

4. Isolation and Lockout

5. Mobile & Energized Equipment

6. Work at Heights

7. Lifting & Hoisting

8. Dropped Objects

9. Confined Space

10. Sharp Objects
